### How we apply interest

Interest is calculated daily. We calculate interest by applying the daily percentage rate to the different portions of your daily balance based on the relevant tiers.

Interest you earn is paid into your account every six months on 30 June and 31 December.

Interest rates are variable and may be changed at any time.

Find the latest interest rates at <https://www.greater.com.au/help/interest-rates>

If the interest calculated on your account on a particular day (when expressed as a number of cents) is not a number of whole cents, the interest is rounded to the nearest cent before it is applied to your account. Where the interest calculated is less than \$0.005 it will be rounded to zero.

### Eligibility

To open an Access Savings account, you must be in Australia and have an Australian residential address.

You need to be able to verify both your identity and residential address.

To keep an Access Savings account open, you must continue to have an Australian residential address.

### Using your account

Access all transactions on your account via online banking.

We generally issue you a statement every six months, or more frequently if requested.

You may pay for something, but not see the transaction in your account that day. This may be because the transaction is still being processed, or, you made it on a non-business day. This may impact your interest calculations.

You need at least \$1.00 in your account to keep it open.
